

Where would we 'B' without BEES?

My nectar will make extra honey for
the beekeeper to collect and sell.

I'm collecting pollen
from the apple blossom to feed the young bees,

I'm going to feed the
queen bee Royal Jelly,

My wings beat 200
times per second!

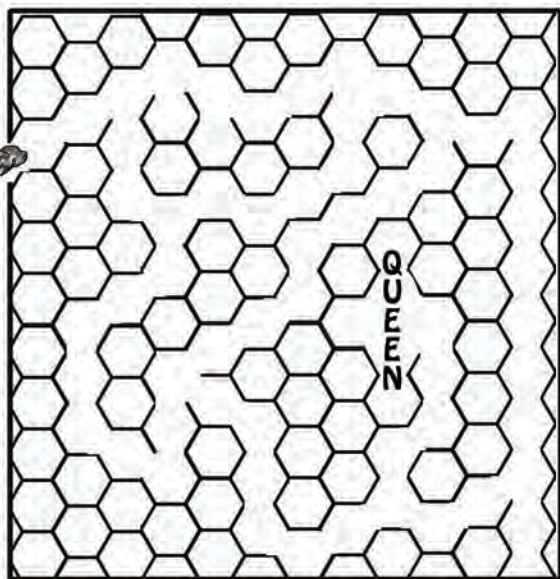

I'll carry pollen from one apple tree to another
to pollinate them and produce apples.

We'll need to collect nectar from
2 million flowers to make one pound of honey!

I'll be collecting nectar from the flowers that bloom in
August and September to make honey for our winter food.

Follow the bee into the hive and find the route to the queen bee.
